SUBCONTRACTING

ALI welcomes subcontracting and
supplier partnership opportunities with
federal prime contractors.

COMPLIANCE

Country of origin and applicable federal
acquisition regulations are evaluated for
each solicitation.

MISSION

To help government agencies and public institutions secure what they need through thoughtful sourcing, dependable coordination, and personal accountability. We believe experience, integrity, and commitment define a company's value, not its size, and that capable American small businesses deserve a seat at the table.

CORE CAPABILITIES

For federal, state, and local government

Sourcing & Procurement

We identify qualified products and suppliers, obtain quotations, and coordinate purchasing requirements.

Logistics Coordination

We coordinate transportation, delivery timing, destination requirements, and shipment planning.

Industrial Supply

We source routine, specialized, and difficult-to-find products based on customer specifications and requirements.

Supply Chain Execution

We support the process from supplier selection through order placement and final delivery, keeping requirements aligned throughout.

ALI's leadership brings experience in sourcing, distribution, and logistics from prior roles.

GOVERNMENT PURCHASING

ALI supports purchase orders and provides competitive quotations promptly, based on product availability and complexity. Government purchase card transactions and payment terms may be accommodated subject to approval.

LEADERSHIP EXPERIENCE

Dijana Ramic-Bland

Founder & Chief Executive Officer

Her career spans the full arc of the supply chain, including ocean freight imports and customs, aerospace accounts, cold chain and fresh produce. As CEO, she leads ALI's strategic direction, government contracting initiatives and business development.

Scott Bland

Principal Member

Close to three decades in distribution, from the warehouse floor to COO and CEO. In previous roles, he oversaw operations above \$200 million annually and, for over fifteen years, supported Defense Logistics Agency requirements. As Principal Member, Scott provides ALI with financial oversight, strategic direction, and operational expertise.
